ATTORNEY DOCKET NO.: 381AS/42640RE
PATENT

SECOND SUPPLEMENTAL DECLARATION AND POWER OF ATTORNEY
REISSUE PATENT APPLICATION

As the below named inventors, we hereby declare that our citizenship, residence postal addresses and residences are as stated below; that we verily believe ourselves to be the original, first and joint inventors of the invention entitled:

AIR FLOW RATE CONTROL APPARATUS

NOV 06 2002

the specification of which was filed on November 24, 1997 and included original U.S. Patent No. 5,868,114, issued February 9, 1999, and amendments thereto as required by 37 C.F.R. § 1.171 et seq.

RECEIVED
TECHNOLOGY CENTER R3700

We verily believe that, as provided in 37 C.F.R. § 1.175, the original U.S. Patent No. 5,868,114 is partly inoperative because we claimed less than we had a right to claim in the patent, as indicated in particular by the scope of the additional broader claims being submitted herewith as Claims 21-46. The assignee of this patent discovered the error and the need for broadened claim coverage upon reviewing the patent as stated in the Declaration filed May 8, 2001.

The errors include not claiming the combinations of the motor-driven throttle valve element, the throttle sensor and the control circuit provided on or in a cover provided with a connector as an interface to the outside or ambient surroundings, as set forth in Claim 21, as well as the claims dependent thereupon. Similarly, the errors include not claiming the combinations set forth in Claims 27, 35, 40, 47, 48, 49, 50, 51, 52 and 53, as well as the claims dependent thereupon. An error included not claiming the combination which includes the electrical connection aggregated into a single connector, the connector and terminal formed at the cover with the motor being electrically connected to the connector, and the cover accommodating the control circuit and forming a space together with the throttle body, respectively.

Any errors being corrected in this reissue application up to the time of filing of this Declaration arose without deceptive intent on the part of the applicants.

We continue to offer to surrender the original patent and/or provide an appropriate affidavit or declaration in the event the same is lost, upon the indication of allowability of the reissue patent application.

We hereby state that we have reviewed and understand the contents of the above-identified Specification, including the Claims, as amended by any amendment referred to above. We acknowledge the duty to disclose information which is material to the
tion of this application in accordance with Title 37, Code of Federal Regulations, § 1.56 (a).

We hereby claim foreign priority benefits under Title 35, United States Code §119 of any foreign application(s) for patent or inventor's certificate listed below and have also identified below any foreign application for patent or inventor's certificate having a filing date before that of the application on which priority is claimed:
